CONSTITUTION.

ARTICLE I.—This organization shall be known as the ASSOCIATION OF COLLEGIATE ALUMNÆ.

ARTICLE II.—The object of this Association shall be to unite alumnæ of different institutions for practical educational work.

ARTICLE III.—Any woman who has received a degree in arts, philosophy, science, or literature from any college, university, or scientific school admitted to the Association is entitled to membership. New institutions shall be admitted on a three-fourths vote of the Executive Committee, confirmed by vote of three fourths of the members of the Association present at any regular meeting. Notice of such proposed action by the Association shall be given with the call for the meeting.

ARTICLE IV.—The officers of the Association shall be a President, six Vice-Presidents, Secretary, Treasurer, and one Director from each State whose resident members number twenty or more, who together shall constitute an Executive Committee, with power to transact the business of the Association in the interim of its meetings. The

officers shall be chosen by ballot at the annual meeting of the Association, and shall hold their offices for two years, or until others be chosen in their place, and they shall have power to fill any vacancy that may occur in their number. Seven members of the Executive Committee shall constitute a quorum.

ARTICLE V.—The annual meeting of the Association shall be held in October, or at such time as may be appointed by the Association at its preceding meeting. Special meetings may be called by the Secretary at the request of the President, or of three Directors.

ARTICLE VI.—No State shall have more than one Director, and, so far as is possible, all the different institutions in the Association shall be represented on the Board of Directors. Each Director shall call at least one meeting annually of the members of the Association resident in the State represented by her, and may call other meetings of the alumnæ resident in her State when she deems it advisable. The Directors of neighboring States may, with the consent of the President, call a joint meeting of the alumnæ resident in their States. Each Director shall make an annual report to the Association of Collegiate Alumnæ.

ARTICLE VII.—Branch associations may be formed in accordance with the following provisions :—

1. They shall co-operate with the Association of Collegiate Alumnæ in its general work, while carrying on independent local work.

2. Regular membership shall be limited to graduates eligible to membership in the Association of Collegiate Alumnae, and residing within such distance as may permit their attendance at the meetings. Graduates who have become regular members of a Branch shall thereafter be considered regular members of the Association of Collegiate Alumnae.

3. Each Recording Secretary of a Branch shall make an annual report to the Association of Collegiate Alumnae.

4. Regular members of duly organized Branches shall pay to the General Association, through the Treasurer of their Branch, an annual fee of fifty cents.

5. Branch associations shall make their own by-laws governing all points except those hereby specified.

ARTICLE VIII.—An annual assessment of one dollar shall be due from each member at the annual meeting, except in the case of members of duly organized Branches. The names of member shall be stricken from the membership list when three successive annual dues remain unpaid. The President and Treasurer may remit *sub silentio* any fee when they deem it advisable.

ARTICLE IX.—This Constitution may be altered or amended by a vote of three fourths of the members present at any regular meeting, notice having been given in writing at a previous meeting.

ANNUAL REPORT OF THE SECRETARY,

MISS MARION TALBOT.

PRESENTED OCTOBER 27, 1892.

THE year just closing has seen the work of the Association carried on with efficiency and interest on the part of those members to whom the direction of its activities and the development of its purposes were especially intrusted. In so large an organization there must be inevitably many members with whom no specific duties rest; yet it is gratifying to note a steadily growing spirit of loyalty on the part of all who are connected with the Association, and an earnest desire to advance its aims. Some loss in membership, however, occurs each year. Since the last report 31 names have been removed from the list. There has never been a year when the Association has lost so many of its strong and valued members through death, while various reasons have caused other withdrawals. On the other hand, the accessions to the membership list have been numerous, and the total number is now 1,458, an increase of 158 during the year.

A careful study of the list of names, as recorded in the annual Register, is not

without interest as showing the tendencies of the movement looking to the higher and broader education of women. Of those whose names appear in the last printed list, 175, of whom 55 are married women, have received the Master's or Doctor's degree, while 31 have held fellowships. When the Association was organized ten years ago, the women who were enrolled as its members had found, for the most part, that the attempt to follow even an undergraduate course was not free from obstacles. There may still be sceptics as to the advisability of a collegiate education for women (our own members would be the last to insist that it should be general), but public opinion has, on the whole, undergone so complete a change that, in some parts of the country at least, a college course is looked upon as the natural and proper method of fitting a girl to do her share in the work of the world. Of recent years the scene of the conflict has been shifted. The opponents of the higher education have reluctantly yielded the right to undergraduate instruction, and have concentrated their forces on the opportunities for advanced study and research. The fight has not been long. The year 1892 will be memorable as settling at once and forever the question as to whether it is expedient and desirable for women to enter the higher fields of learning. As it is not vain-glorious for this Association to claim that, through the influence of its organized and concentrated work, it had a share in directing public opinion in favor of collegiate training; so it is not unreasonable for it to feel a sense of pride in the new movement in favor of graduate work, since its own generous and persistent efforts have contributed largely to the possibility of further opportunities for women. There is no more important work for the Association than the support of its fellowships. The present number should be not only maintained but increased. Every generous and unsolicited offer on

the part of a university to grant its highest privileges to women equally with men should intensify our efforts in behalf of our own fellowships. The work done by the special committee is most satisfactory, and all its details, if it were possible to make them known, would doubtless prove equally inspiring. It is impossible to make too strong an appeal to every member to do her utmost to forward the work and to relieve the committee as far as possible of a work which, in some of its phases, must be more or less burdensome.

The number of Branches at the time of the last meeting was nominally thirteen. One of these has been practically inactive for a couple of years, and it may seem best to ask it to relinquish its official connection with the Association, whose influence will not be increased by such fictitious strength. On the other hand, three vigorous organizations have been formed in different States and are now ready to receive recognition as Branches. There is throughout nearly all of the local Associations a feeling of disappointment and regret that their work is not more effective and far reaching. It is true that their members are in general much engrossed with the cares and responsibilities which come with an intelligent interest in the affairs of life and they cannot give time or strength freely to the organization. Under these circumstances the yearly report of the work actually done by the Branches is an unfailing source of surprise and should greatly encourage all who have any share in it. But it must not be forgotten that immeasurably greater than the influence of any specific piece of work carried on by a Branch is the moral force which comes from the knowledge that such an organization exists uniting college women in a liberal and helpful spirit. The real significance of the Association is well shown by the eagerness of graduates from other institutions to

enter its ranks. The old problem of the admission of colleges is ever present, but at no time has the wisdom of a conservative policy been more apparent than it is to-day in the minds of those who have been able to judge of the educational influence of the Association in this country and abroad. It would, however, be fatal to rest satisfied with a negative form of power and activity. With the rapid increase in the number of Branches, it may well come within the province of the general Association to take some vigorous steps towards co-ordinating their strength and directing it toward the common ends the Association has in view.

At present the chief means adopted to bring the members at large into closer union is the publication and distribution of papers. Seven of these, covering 139 pages, have been issued during the year, and 11,400 copies have been distributed. A suggestion, which should receive attention, has been made to the effect that the Branches co-operate to secure the publication in the current press of items relating to the higher education of women.

The committees of the Association have been carrying on the work intrusted to them, in accordance with instructions from the Association. The Committee on Study of Wage Question and the Committee on Study of Development of Children have given attention to outlining investigations in which the members at large may share, and they will present their plans in detail. The Committee on Collegiate Administration, consisting of members who are serving as college trustees, have met, and at their request the Association will consider the subject of the Administration of Collegiate Beneficiary Funds and Scholarships. Another topic which has received their attention is the Certificate System of Admission to College.

The Bureau of Occupations and the Committee on Endowment of Colleges will report in detail. The Committee on Educational Progress has been actively engaged in gathering items of interest concerning new opportunities for the higher education of women, and it is hoped that much new material, supplementary to that published in the spring, may be placed within the reach of every member.

The Bureau of Collegiate Information has had this year the usual inquiries regarding the health of college girls and women college graduates, the occupations and statistics of marriage of alumnae, and co-education. Special inquiries have been made about co-education, one from persons interested in that subject in England, and information on the general subject of the higher education of women in America, was sought from places as far removed from each other as Germany and Japan. The information sent to Germany was intended to overthrow a statement made before the Deutscher Frauen Verein to the effect that "the higher education of woman had had a thorough trial in America, and it had been proved that such mental training was injurious to woman and rendered her unfit for the duties of wife and mother."

Mrs. Kate M. Cone, who is in charge of the Bureau, will be glad to receive any printed matter concerning the higher education which should have a place in the special library she is collecting.

Following instructions given by the Association at its last meeting, the Secretary initiated an inquiry as to the opportunities and responsibilities of the Association in connection with the World's Columbian Exhibition and the World's Columbian Congress. These matters have now been placed in the hands of well organized committees who have secured favorable replies to their requests. Full and detailed information will be given to the members as speedily as possible.

After gathering up the threads which show the way in which the Association is carrying out its purpose of uniting alumnae of different institutions for practical educational work, it is always tempting to dwell for a time on the spirit of unity which has been developed through this organization. The social advantages of the Association are unquestioned. But however delightful may be the personal relations which have their source in a common membership in the Association, the greatest good which the friendships formed has brought forth has been a wider and deeper interest on the part of nearly every member in all the institutions which are advancing the educational interests of women, coupled with an ever-increasing loyalty to her own alma mater.

REPORT OF THE ANNUAL MEETING, OCTOBER 27-29, 1892.

THE eleventh annual meeting of the Association was held in Washington, D. C., October 27, 28 and 29, by invitation of the Washington Branch. On Thursday morning the visiting members were the guests of the National Deaf Mute College, at Kendall Green. The first regular session was held at the Arno on Thursday afternoon, the President, Mrs. Annie Howes Barus, presiding. The annual report of the Secretary was read and accepted. The report of the Treasurer, Mrs. Mary Roberts Smith, showed receipts for the year, \$1,034.23; expenditures, \$628.77; balance on hand, \$405.46. The reports of the State directors were presented, and showed a wide-spread interest in the work of the Association. The director for Connecticut, Miss A. J. Todd, reported the organization of a Connecticut Branch. The application of this Branch, together with

similar applications from newly organized Branches in Rhode Island and Los Angeles, Cal., was referred to a sub-committee; and later, on recommendation of the committee, the Association voted to recognize the new organizations as regular Branches.

The Committee on Endowment of Colleges presented its annual report, through its chairman, Miss Alla W. Foster. In addition to its general work of strengthening public sentiment in favor of liberal endowments for educational purposes, the committee had given special consideration to the question of the advisability of any local Branch undertaking the raising of special endowments for particular institutions, and recommended that no restriction be placed on the Branch, as far as endowments, scholarships, and fellowships are concerned; but it was suggested that no Branch shall undertake the endowment of a professorship unless authorized by the directors of the Association.

In the evening, the members were the guests of the Washington Branch, at a social reception held in their honor in the parlors of the Arno. On Friday morning, under the direction of the local Committee on Hospitality, parties were formed to visit the public buildings and places of interest in the city.

The session Friday afternoon was held at the Columbian University. Reports from the Bureau of Occupations and on the Representation of the Association at the World's Fair were presented.

The Committee on the Study of the Development of Children recommended, through its chairman, Mrs. A. H. Barus, the adoption of a schedule for observations on child life, and urged the Association to give the proposed work the benefit of their hearty support.

A paper by Miss Elizabeth Deering Hanscom, on "The Administration of Col-

legate Beneficiary Funds and Scholarships," was read, and followed by an interesting discussion.

A public session was held in the evening, at the National Museum, Mrs. Martha Foote Crow in the chair. An address on "The Educational Outlook for Women," was made by Hon. W. T. Harris, United States Commissioner of Education. This was followed by a paper, by Miss Elizabeth Raeburn Hoy, on "Local Work of Alumnæ." Addresses on "Recent Educational Progress for Women in Europe and the United States" were made by Miss Ida Wood, Miss E. D. Hanscom, Miss Marion Talbot, and Mrs. M. F. Crow.

On Saturday morning the Association met at the National Museum, the Vice-President, Miss Anna R. Haire, in the chair. The Committee on the Study of the Wage Question, through the chairman, Miss Eleanor Lord, reported progress in the investigation which had been proposed.

Mrs. Bessie Bradwell Helmer reported, for the Committee on Fellowships, that the European fellowship had been awarded to Miss Alice Walton, and the American fellowship to Miss Susan B. Franklin. The scholarship offered to the Association, through the committee, by Mrs. Mary B. Willard, of Berlin, was accepted, and a vote of thanks was passed.

The Executive Committee presented a report, through the sub-committee, on Admission of Colleges. The Association voted that, for the present, the Executive Committee should not receive applications for the admission of new institutions to the Association, but should provide for a method of nomination through members of the Executive Committee.

Miss Sarah O. Peck was selected director for Ohio, and Mrs. Louise Prosser Bates director for Rhode Island.

Article V. of the Constitution was amended to the effect that "the annual meeting of the Association shall be held in October, or at such time as may be appointed by the Association at its preceding meeting." The time for holding the next meeting was left to the Committee on World's Fair.

The President was authorized to appoint a nominating committee.

Appropriations for the work of the Association, amounting to \$500, were made.

Mrs. Alice Freeman Palmer was appointed to represent the Association on the Advisory Council of the World's Fair Congress of Representative Women.

A greeting was received from the International Society of College Women.

The session closed with formal acknowledgement of the many and varied courtesies extended to the Association in the city.

After luncheon had been served in the gallery of the Museum the members joined in an excursion to Mount Vernon.

THE LOCAL WORK OF THE ASSOCIATION.

A SYNOPSIS OF THE ANNUAL REPORTS OF THE BRANCHES, PREPARED BY MISS ELIZABETH RAEURN HOY, AND PRESENTED TO THE ASSOCIATION AT THE ANNUAL MEETING, OCT. 28, 1892.

Reports received from the local branches indicate that during the year 1891-2 there has been gratifying progress in the general intellectual and sociological work of the Association of Collegiate Alumnae.

During the year the Association has had thirteen branches in local circles. The General Association numbers over 1,400 members, 975 of whom are organized into these 13 Branches: Boston numbering 225; New York City, 170; Chicago, 102; California, 100; Philadelphia, 87; Detroit, 63; Washington, 52; Ohio, 49; Minnesota, 44; Central New York, 30; Indiana, 20; Eastern New York, 18, and Western New York, 15.

These organizations report business, literary, and social meetings, 50 in number, as follows: Minnesota, 9; Chicago, 7; Washington, 5; Boston, New York, and California, each 4; Detroit, Philadelphia, Western and Eastern New York, each 3; Ohio and Indiana, each 2, and Central New York, 1.

At the literary meetings of the Branches 46 papers have been presented: The

Philadelphia Branch contributing 9; Chicago, 7; Detroit, 6; Pacific, 5; Minnesota and Indiana, each 4; Washington and Ohio, each 3; Boston and New York, each 2, and Central New York, 1.

In addition to these papers there have been given nine talks, suggested mainly by the practical, educational and philanthropic work in which alumnae are engaged.

Addresses were given before the Boston Branch by Mr. Horace G. Wadlin, Chief of the Massachusetts Bureau of Labor Statistics, on "Women's Work and Wages," and by Mr. Sylvester Baxter, on the "Right of the Individual *versus* the Newspaper." Miss Mary Follett gave a talk on "Life at Newnham," and Miss Vida D. Scudder one on the "College Settlement."

Miss Mary L. Avery presented to the New York Branch a paper on "James Russell Lowell," and the Rev. Dr. William B. Brown gave an address on "Extemporaneous Speaking."

Prof. S. H. Peabody, Chief of the Department of Liberal Arts for the Columbian Exposition, addressed the Chicago Branch. Papers, followed by discussion, were presented to the Association on the following subjects: "Higher Education as a Factor in the General Development of Women," "College Women in Society," "Our Relation to College Extension," "The Relation of University Extension to Children in the Home," "Woman as an Inventor," "College Education for Women in England."

The general subject of a "New Philadelphia and its Needs" was discussed in the Philadelphia Branch, and papers were read on the following topics: "A Preparatory School for Girls as Part of the Public School System," "Apartment Houses at Moderate Rentals," "The Centralization of Charities," "A Symphony Orchestra,"

“Art Requirements,” and “A Free Public Library.” Other papers presented at the meetings were: “Marlowe, the Elizabethan Lyric Poet,” “The Open Letter Department of the Century Magazine,” and “The Shakers and their Settlement.”

Among the topics discussed in the California Branch were: “Methods of Study in Local History,” “Should Physical Training be Compulsory for Girls in Colleges and Secondary Schools?” and “Graduate Study and the Alumnæ Fellowships.”

Miss Fanny W. McLean, head worker of the New York College Settlement, addressed one of the meetings.

The Indiana Branch listened to papers on “Our Vantage Ground,” by Mrs. W. B. Van Gorder, and “Hawthorne’s Delineation of the Puritans.”

Mrs. May Wright Sewall spoke on “Women at Bologna University,” and “Girls’ Schools in Germany.”

The subjects of papers prepared by the Detroit Branch were: “Women in College,” “The Duty of the College Graduate to the English Language,” “Egyptology,” “Opportunities for Women in European Universities,” “The Duty of the College Graduate to University Extension,” “Housekeepers’ Clubs,” and “Education of Girls in Mexico.”

The Washington Branch was addressed by Mrs. Annie Howes Barus, on “Child Growth,” by Miss Ella S. Leonard, on “The Salvation Army,” and by Mrs. Stowell, on “The Need of a Girls’ Reform School in Washington.”

The Ohio Branch, formed the past year in Cleveland, reports two meetings. At one of these Miss Mary L. Avery, of New York, read a paper on “James Russell Lowell.” At the other, Mrs. Christine Ladd Franklin, spoke on “Fellowship Work,”

and President Thwing, of the Western Reserve University, discussed "The Wisdom of Identical Courses of Study for Men and Women in Colleges."

The Minnesota Branch listened to four papers prepared by local members: "Modern Scandinavian Literature," "Why Women Should Study Political Economy," "Harriet Martineau," and the "Relation of *Æsthetic* Culture to Civilization."

The Central New York Branch, instead of holding its usual quarterly meetings, has adopted a new plan of calling its members together but once a year, and of doing the alumnae work by clubs formed within the Branch. At its yearly meeting, Mrs. Helen Hiscock Backus spoke at length on Alumnae work. During the year much work has been accomplished in the Branches through clubs.

Boston has had a Political Science Club. This has held fourteen meetings, the principal subject for study and discussion being "Women's Wages." Its Fiction Club has met monthly. The authors considered were Thackeray and Trollope. A club of women, in Hyde Park, members of the Chicago Branch, has met once a week for the study of Emerson and Spencer. Detroit has organized a Latin club, a German club, and has been greatly interested in a Housekeeper's club. The Central New York Branch has studied Bulwer and Scott. Conspicuously important among all these stands The College Extension Club organized by the Washington Branch. The money, time and energy of this Branch have been devoted to the promotion of a club for the advantage of self-supporting women of limited opportunities in Washington. During the session '91-'92, lectures and recitations were conducted in history, literature and rhetoric, in French and in German. There were discussions of current topics, and some

practical work in millinery and bookkeeping was accomplished. Seventy-five names were enrolled, and the average attendance reached fifty.

In addition to the work done through the literary meetings and by clubs, several Branches have shown activity in other lines. Under the auspices of the Chicago Branch, Prof. Lucy M. Salmon of Vassar, gave six lectures on "Domestic Service," and Mrs. Alice Freeman Palmer lectured on "The Influence of College Education upon our Homes." Both of these were for the benefit of the Fellowship Fund.

Alumnae in Philadelphia have made efforts to found a free public library in that city. Five hundred copies of Miss Tappan's paper setting forth the need of such a library were printed and distributed among the city's influential people. The Committee on a Free College Preparatory School for Girls has done much preliminary work.

The Indiana Branch has concentrated its efforts during the year to further the work of University Extension, particularly in Indianapolis. Under the auspices of the Branch two courses of twelve lectures each were given. The subjects considered were "The Political History of the United States from 1775 to 1830" and "Social Economics." Several students in each course did the prescribed reading, took the weekly quiz, and at the end successfully passed written examinations and received credit by certificate for college work. The courses were not only self-supporting, but netted a small surplus and granted free admission to some worthy and earnest students.

The Western New York Branch has established a home library after the model of the Boston home libraries.

The Detroit Alumnae have worked to arouse interest in the women's department of

the gymnasium in the University of Michigan. The Minnesota Branch has given lectures in the interest of University Extension, and the Boston Branch has appointed an Educational Committee, which has presented plans similar to those of the University Extension movement, and which reports that a good beginning in the work has been made.

The California Branch reports this interesting piece of special work: At the beginning of the year, a determined effort was made by the City Superintendent of Schools, supported by the President of the Board of Education, to reduce the course of study of the San Francisco Girls' High School to its former weakness, on the avowed ground that it was too severe for girls. The press of the city was, for the most part, in sympathy with the recommendation. At the appeal of the President of the Branch, Miss Lillian Martin, then acting principal of the school, a committee succeeded in reversing the attitude of the press, organizing the several hundred girls of the school in a practically unanimous protest against the proposed action, and defeating the measure so completely in the meeting of the Board of Education, that not a member — not even those who had proposed it — ventured to vote for its passage.

The history of worthy things done by the local branches since October, 1891, justifies the living of the Association of Collegiate Alumnae, and demonstrates that we are more than a mere social organization, with neither tea and small talk, on the one side, nor the ballot-box, on the other, as the purpose of our compact.

We cannot take to ourselves entire credit for having originated and supplied the causes which led the Legislature of the State of New York to place woman upon an equal footing with man in the making of contracts, but we may hold that the success-

ful, independent work of college-cultured women in the world of business life, and that the successful corporate work of such institutions as the College Settlements have exerted indeed no little influence. While no particular local Branch can claim the honor of having placed three women belonging to our organization in their present conspicuous places in the University of Chicago, nevertheless the tendency of the aggregate influence of the local Branches, by educating public sentiment, is towards creating such places for women, and aiding to prepare women to assume such large responsibilities. So, too, among the influences which have helped to establish new colleges for women, which have opened old institutions to women, must be counted the influence upon public thought of every local Branch.

Unconscious of the power we have wielded, we have helped to do much. Let us now, realizing our strength, resolve to do more. We are already factors in social development, and separately and independently have done or helped to do much. Let us become more united and be stronger, more potent factors, having no radical aims, no fads, but solely the one object of "looking upward, looking forward, and lending a hand" to women, exercising wherever we may the influence of pure, womanly culture.

REPORT OF THE COMMITTEE ON FELLOWSHIPS.

MRS. BESSIE BRADWELL HELMER, CHAIRMAN.

Soon after your Committee on Fellowships was appointed a systematic effort was made to arouse the interest of the members in the fellowships work through the local officers in the various centres.

Time was an important factor in the work, and the experience of your committee this year has emphasized the need of a reserve fund. Many candidates must make arrangements for the next year's work in advance and in a majority of cases the contracts for teaching must be made before May. Your Committee, however, must not issue circulars offering the fellowships until sufficient money is pledged to meet the obligation of the Association.

Letters were sent to all of the State directors and the presidents of Branches urging them to have special committees appointed in their districts to canvass the field and raise money for the fund. In some instances the local organizations had already held their fall meetings and would not meet again for three or four months. In others deep interest was expressed in the object, but the pressure of other work (notably the deservedly popular university extension) would prevent any concerted action. This attempt to arouse organized effort not being entirely successful, appeals were made to six hundred and nineteen individual members. It was suggested that the trifling contribution of one dollar or even of fifty cents from each member would more than

insure the requisite amount. Attention was also called to the fact that the object did not appeal to the general public and that therefore it was all the more necessary for the college bred woman to hold it as her special charge.

One month's returns from this most urgent appeal was forty-three dollars, clearly demonstrating to your Committee that this work must be done in the Branches. Meanwhile three Branches came to the assistance of the Committee, Boston, Chicago and Minnesota, Boston and Chicago pledging \$250 each and Minnesota \$200. Thus was your Committee enabled to offer the two fellowships, one of \$500 for study in Europe and another of \$350 for post graduate study in an American university. The statement of qualifications in the circulars was the same as the previous year, the committee deeming uniformity in this particular from year to year desirable, as candidates may thus know in advance of the official notification the work expected of them.

In some instances the condition that "other things being equal, preference will be given to graduates of not more than five years standing" deterred candidates from competing, as they did not wish to enter the race with this handicap. The Committee calls attention to the phrase "other things being equal."

Enclosed with the announcements of the Association was a circular issued by the Woman's Education Association of Boston offering a foreign fellowship to graduates of colleges belonging to the Association of Collegiate Alumnae or graduates of the Harvard Annex upon substantially the same terms as the fellowship of the A. C. A. The announcement in this circular that "the testimonials of all applicants will be submitted for examination to a committee composed of the Committee of the Association of Collegiate Alumnae, having a similar duty, and of two members from the

Woman's Education Association" is a gratifying mark of the high esteem in which the Association is held.

Twelve candidates appeared for the fellowships, nine for the European and three for the American. By the unanimous vote of the committee, the European fellowship was awarded to Miss Alice Walton, a graduate of Smith College and Cornell University, and the American to Miss Susan B. Franklin, a graduate of Bryn Mawr College.

The fellowship offered by the Woman's Education Association of Boston, was awarded by the unanimous vote of the joint committees to Miss Mary Buckingham, a graduate of the Harvard Annex, studying the classics in Cambridge University.

It is interesting to note that the three successful candidates this year were in the classics. Last year two were in science and one in mathematics.

In May, the Chairman of your Committee received a communication from Mrs. Mary Bannister Willard, principal of the American Home School in Berlin, offering to the A. C. A., or to its Chicago Branch, a scholarship in her school in modern languages. Your Committee deemed it fitting that this scholarship should be administered by the National Organization.

The Willard Scholarship, which consists of board and tuition for one year in the American Home School at Berlin, is given upon the following conditions:—

The scholarship is to be awarded by a joint committee, consisting of the Fellowship Committee of the A. C. A., and a committee composed of Miss Frances E. Willard and Mrs. Mary Huse Wilder (both members of the A. C. A.). The candidate is to be a graduate of not more than one year's standing from some college belonging to the A. C. A. She must have studied the French or German language for at least one year,

under competent professors. She must be willing to submit to the rules and regulations of the school, and she must be unable otherwise to avail herself of this opportunity or foreign study. In September, the Chairman received an application for this scholarship from Miss Helen Babcock, with the approval of Mrs. Willard. Although the scholarship had not been formally accepted by the Association, your Committee, taking into consideration all the circumstances of the case, unanimously voted to give the scholarship this year to Miss Babcock, and would respectfully ask that its action, in accepting Mrs. Willard's generous offer, and in giving the scholarship to Miss Babcock, be ratified.

FINANCIAL REPORT.

Received from Mrs. A. F. Palmer, balance from last year's account	\$183 00
Annual subscriptions	86 50
Boston Branch	257 45
Chicago Branch	250 00
Minnesota Branch	100 00
Pacific Coast Branch	100 00
New York Branch	29 75
Ohio Branch	14 00
Madison Committee	7 62
	<hr/>
	\$1,028 32

EXPENSES.

Printing, stationery, etc., donated by Jas. B. Bradwell.

Postage, 619 circulars \$6 19

Postage, expressage, telegrams, etc.. 17 35

— \$23 54

Balance . \$1,004 78

In offering the Financial Report, the Chairman of your Fellowship Committee wishes especially to acknowledge the efficient aid rendered by Mrs. Alice Freeman Palmer, and Miss Louisa Holman Richardson.

In concluding this report, the Chairman wishes she might impress upon the members the importance of their generous and loyal support of this advanced work for women. Considered economically or ethically, it is most deserving of their earnest co-operation.

REPORT OF THE BUREAU OF OCCUPATIONS.

BY MISS EVA M. TAPPAN.

It is impossible to say that any remarkably new and brilliant schemes have marked the conduct of the Bureau of Occupations during the past year. The same problems have called for solution, and no unusually brief and inexpensive method has presented itself. The question was still:

1. To find what kind of work our Alumnæ desire.
2. To make known to as many people as possible the fact that a Bureau is in existence through which college women can be found who are prepared to act as teachers, librarians, laboratory assistants, etc.

Although the postage on 1,400 circulars is a large item, it seemed most fair and most wise to send them, once at least, to every member of the Association. If one may judge from the number of answers, the Bureau certainly fills the traditional "long-felt want," for the blanks were returned at the rate of 10 or 15 a day from all parts of the United States, and from various quarters of Europe and Asia, — 115 blanks in all.

To advertise the Bureau, no better plan presented itself than the method adopted in previous years, *i. e.*, to send cards to the principal schools. A full list was obtained from the Commissioner of Education. From this a revised list was made of the schools and colleges employing women as teachers, and from this a third list of those whose general standing made it probable that fair salaries could be afforded. Circulars were sent to

as many of these as the expense of postage and printing would allow. They were also sent to a large number of libraries, art schools, etc., and also to many individuals whose interest in the work of educated women made it probable that they would at least be carefully read.

The replies called forth by these circulars would repay a careful perusal. A large majority called for teachers, and more positions were, as a matter of course, in the vicinity of Philadelphia than elsewhere. Among the private schools of Philadelphia the Bureau has become known as a resort, in time of need, and a dependence in emergencies. Yet applications for teachers have come from Baltimore, Scranton, Reading, Brooklyn, Rochester, Minneapolis, Kalamazoo, New York, St. Louis, from California, Iowa, and Nebraska.

These applications have not been without interest as showing the conception in certain minds of the kind of position that would be attractive to the college woman.

As a general thing the salaries offered cannot be considered high, in proportion to the expenditure of money, strength and time required to prepare a person for the positions described. They range, for a resident teacher, from \$300 and home to \$500 and home; for a non-resident, from \$500 to \$1400. A flourishing academy, if one may judge by the catalogue, offered but \$60 per school month for a lady principal who must be a college graduate, an experienced teacher, and thoroughly prepared to conduct classes in German and the higher English branches. The best position, in point of salary, was offered by an insurance company that would pay \$2000 for a private secretary of high attainments in stenography and the higher mathematics. A well known Teachers' Bureau applied for a college woman to take a position in an educa-

tional publishing house. Our Bureau has already a friendly connection with that of Mrs. May Cheney, in San Francisco, and this last application suggests a possible future relation between our Bureau and some one of the prominent Teachers' Bureaus that would be of mutual advantage.

There is this year the same difficulty in stating definite results, owing to the fact that very few members think it of the least importance to report when an engagement is formed, or when a negotiation proves unsuccessful, and word comes either indirectly, or not until long afterwards, or oftener still, not at all. A fair illustration of this difficulty is that the Bureau now holds more than 100 applications for positions, and that, while it can hardly be supposed that even a large minority of these members have formed no engagement for the year, only four have thought it necessary to inform the Bureau that they are not free to accept any desirable position that may be offered. If the Bureau were endowed with a personality, it would certainly grieve over the necessity of its appearing a sort of quicksand, wherein money and postage stamps and printer's ink are rapidly engulfed and whence no return is ever apparent.

I would suggest charging a small registration fee. Even a nominal one of twenty-five cents would, on the principle that people value what they pay for, secure more careful attention to the rules of the Bureau; would help to draw the line between those that really want a position and those who have no definite thought of making a change, but think their names may as well be on the books: and would enable the Bureau to extend its influence and increase its power.

LIST OF MEMBERS.

ABBREVIATIONS.

B., Boston University. 1882.
B. M., Bryn Mawr College. 1890.
Cal., University of California. 1886.
C., Cornell University. 1882.
